Child Care Center Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a child care center uses pesticides¹.

Currently besides keeping our scho	ol clean, we have no need for pesticid	e monitoring with the exception of cleaning

hard surfaces to prevent bacteria.

Pests and non-chemical management practices This child care center has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level: Install **Physical** Manage Seal Remove Other Fix leaks **Traps** Pest irrigation cracks barriers removal food No pest have been identified at this П time. \Box П Chemical pest management practices If non-chemical methods are ineffective, the child care center will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment. This child care center expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by child care center staff or licensed pest control businesses.): Occasionally, our staff uses Legacy of Clean Multi-Purpose Cleaner and/or Clorox Anywhere Spray and Clorox Disinfectant Wipes. For the most part, our staff uses Micro-Fiber Cloths with Warm Water or Warm, Soapy Water. **Healthy Schools Act** This child care center complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188) **Training** Every year child care center employees who make pesticide applications receive the following training prior to pesticide use: Pesticide specific safety training (Title 3 California Code of Regulations 6724) School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5). **Submittal of pesticide use reports** Reports of all pesticides applied by center staff during the calendar year, except pesticides exempt from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711) **Notification** This child care center has made this IPM plan publicly available by the following methods (check at least one): This IPM plan can be found online at the following web address: https://MVPpreschool.org/IPM This IPM plan is sent out to all parents, guardians and staff annually. Review This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date: 3/22/2017

I acknowledge that I have reviewed this child care center's IPM Plan and it is true and correct.

Date of next review: 3/22/2017
