

Beginning March 16, 2020...

Monte Vista Presbyterian Church and Preschool is once again joining Lifewater International by collecting coins so that they can build sustainable clean water for an under-privileged country. Last year, the church collected over \$20,000 of which the preschool raised over \$500! This was used to build a well and latrine to provide clean, safe water to children at a primary school in Uganda! Next week, your child will receive a jar to begin collecting loose change. We will have a giant bucket in Miss Reese's office for your child to empty their coins. Then just take the jar back home and refill it again. Collections will be received until April 3rd. We will be talking to your child about clean water and how important it is for children to drink. For more information about Lifewater International, please visit MVPpreschool.org/mission/lifewater/.
